

This indirect multi-species ELISA detects anti-MOMP antibodies in ruminant serum and plasma.

Please contact IDvet for use on other species.

- **High sensitivity and superior specificity** with respect to *C. pecorum* thanks to the use of peptide antigens
- **Applicable to multiple species**, including cattle, sheep and goats. Please consult IDvet for use with other species

SPECIFICATIONS

Method	Indirect ELISA
Species	Ruminants and other species
Specimens	Serum and plasma
Coated antigen	MOMP peptide
Conjugate	Anti-multi-species IgG-HRP conjugate (concentrated 10X)

ORDERING INFORMATION

Product code	CHLMS-MS-2P	CHLMS-MS-5P
Kit format	2 plates	5 plates
Reactions	192	480
Plate format	12 x 8-well strips	12 x 8-well strips

ASSOCIATED PRODUCTS

Negative freeze-dried porcine serum

Product code	MRINEG-PORC
Format	1 ml
Description	Freeze-dried porcine serum negative for various diseases.

Chlamydophila abortus positive freeze-dried serum

Product code	MRI-CHLM
Format	1 ml vial (freeze-dried)
Description	Positive freeze-dried ovine serum to be used as internal reference material for quality control.
