

Competitive ELISA kit for the detection of antibodies directed against the CSFV E2 glycoprotein in swine serum or plasma.

- **Sensitive and specific** detection of anti-E2 antibodies
- **Fast and convenient protocol:** results in 90 minutes
- **Practical:** easily check that all samples have been correctly deposited as the dilution buffer changes color upon addition of the sera

SPECIFICATIONS

Method	Competitive ELISA
Species	Swine (domestic pigs and wild boar)
Specimens	Serum or plasma
Coated antigen	Recombinant E2 glycoprotein
Conjugate	Anti-E2-HRP conjugate (concentrated 10X)

ORDERING INFORMATION

Product code	CSFE2C-5P
Kit format	5 plates
Reactions	480
Plate format	12 x 8-well strips

ASSOCIATED PRODUCTS

Negative freeze-dried porcine serum

Product code	MRINEG-PORC
Format	1 ml
Description	Freeze-dried porcine serum negative for various diseases.

Classical Swine Fever positive freeze-dried serum

Product code	MRI-CSFE2
---------------------	-----------

Format	1 ml vial (freeze-dried)
Description	Freeze-dried highly positive swine serum to be used as internal reference material for quality control.
