

Indirect ELISA for the detection of anti-*Neospora caninum* antibodies in bovine individual or bulk milk samples.

- **Easy-to-use:** controls and samples are added undiluted to the wells, and wash steps are standardized across all ID Screen® kits.
- **Cost-effective:** the use of milk samples makes sample collection easier and more economical
- **Accurate, robust and reliable:** high specificity and sensitivity, and excellent correlation with serum testing

SPECIFICATIONS

Method	Indirect ELISA
Species	Bovine
Specimens	Individual and bulk milk samples
Coated antigen	<i>Neospora caninum</i> extract
Conjugate	Anti-ruminant IgG-HRP (concentrated 10X)

ORDERING INFORMATION

Product code	NCSMILK-5P	NCSMILK-10P
Kit format	5 plates	10 plates
Reactions	480	960
Plate format	12 x 8-well strips	12 x 8-well strips

ASSOCIATED PRODUCTS

Freeze-dried negative bovine milk

Product code	MRINEG-MILK
Format	2 ml
Description	Freeze-dried bovine milk negative for various diseases.

N. caninum positive freeze-dried milk

--	--

Product code	MRI-NCMILK
Format	2 ml vial (freeze-dried)
Description	Freeze-dried bovine milk containing anti- <i>N. caninum</i> specific antibodies.
