

Indirect ELISA for the detection of antibodies directed against European and American PRRSV strains in serum and plasma.

- High specificity and sensitivity
- Efficiently detects European (EU-PRRSV, type 1) and American (US-PRRSV, type 2) strains
- Results in only 75 minutes

SPECIFICATIONS

| | |
|-----------------------|---------------------------------------|
| Method | Indirect ELISA |
| Species | Swine |
| Specimens | Serum or plasma |
| Coated antigen | PRRSV recombinant proteins |
| Conjugate | Anti-swine IgG-HRP (concentrated 10X) |

ORDERING INFORMATION

| | |
|---------------------|--------------------|
| Product code | PRRSS-5P |
| Kit format | 5 plates |
| Reactions | 480 |
| Plate format | 12 x 8-well strips |

ASSOCIATED PRODUCTS
