

Multi-antigen indirect ELISA kit for the detection of antibodies against P32, P62 and P72 of the ASF virus in porcine serum, plasma or blood filter paper samples.

- **The only commercial ELISA based on 3 recombinant antigens** : P32, P62, and P72
- **High sensitivity and specificity, with clear separation of positive and negative results**
- **Convenient and versatile**, with ready-to-use components and protocols for serum, plasma and blood filter paper samples.
- **Blood filter paper samples** may be tested in 96-well deep-well plates, making sample processing faster and less prone to mix-ups

SPECIFICATIONS

Method	Indirect ELISA
Species	Swine (domestic pigs and wild boar)
Specimens	Serum, plasma, meat juice or blood filter paper samples
Coated antigen	Mix of P32, P62 and P72 recombinant proteins
Conjugate	Anti-multi-species-HRP concentrated conjugate (10X)

ORDERING INFORMATION

Screening format

Product code	ASFS-2P	ASFS-5P
Kit format	2 plates	5 plates
Reactions	192	480
Plate format	12 x 8-well strips	12 x 8-well strips

Confirmation format *

Product code	ASFB-5P
Kit format	5 plates (biwell format)

Reactions	240
------------------	-----

Plate format 6 x 16-well strips

* Each sample is tested in duplicate in a coated well (even columns) and in an adjacent non-coated well (odd columns). Results are calculated with respect to the corrected sample OD value (even well OD – odd well OD).

ASSOCIATED PRODUCTS

Negative freeze-dried porcine serum

Product code	MRINEG-PORC
---------------------	-------------

Format 1 ml

Description Freeze-dried porcine serum negative for various diseases.

ASF positive freeze-dried serum

Product code	MRI-ASF
---------------------	---------

Format 0.5 ml vial (freeze-dried)

Description Freeze-dried positive porcine serum to be used as internal reference material for quality control.
